

Bulletin 2018-06

March 26, 2018

Subscribe to receive bulletins by email

The Alberta Utilities Commission is launching an easy way to subscribe to email alerts for bulletins, news releases and announcements. This visitor-managed subscription service allows you to opt in to receive emails or opt out and unsubscribe to email message alerts.

Traditionally the AUC maintained a list of contacts that we believed might be interested in receiving email notification when bulletins were released. The AUC will no longer be maintaining this list, instead you can subscribe or unsubscribe from the list with a simple click.

We are also happy to communicate new job opportunities through email alerts. If you are interested in new career opportunities at the Alberta Utilities Commission, you can opt in to receive that information through the same subscription service by simply checking another box.

To subscribe to email alerts go to this page

<http://eepurl.com/dh1ECP>.

Some email systems will automatically send these emails to your junk email folder. Please check your junk email and contact your IT service group to assist you with directing AUC emails to your inbox.

We ask that you continue to use the eFiling System to get proceeding updates and notifications. If you have comments or questions about this service please contact us at webmaster@auc.ab.ca.

Sincerely,

(original signed by)

Robert D. Heggie
Chief Executive
