Alberta Utilities Commission Chair Mark Kolesar announces appointment of Commission member Henry van Egteren as a vice-chair

Alberta Utilities Commission Chair Mark Kolesar is pleased to announce that Commission member Henry van Egteren has been appointed as a vice-chair of the Alberta Utilities Commission.

Mr. van Egteren has contributed to decisions in the AUC's facilities, rates and markets-related proceedings, including performance-based regulation, electricity price-setting plans and enforcement. His expertise has also contributed to the development of economic principles to help guide the AUC in producing efficient regulatory outcomes.

"I am reminded that, as with any organization, the AUC is only as good as the people who comprise it," said AUC Chair Mark Kolesar. "Henry's expertise, thoughtful approach and balanced decision making will help to steer the Commission through times of considerable change. I congratulate Henry on his appointment and I look forward to his contributions to our continued success."

Mr. van Egteren joined the AUC in 2012. He holds a doctorate in economics and had 25 years of research and teaching experience in microeconomics, regulation, environmental economics, and law and economics before joining the AUC. He was also active in the business, public administration and government spheres, with consultations or contributions to the auditor general of British Columbia, the University of Alberta Faculty of Business, the Alberta Treasury Department and the Alberta Department of Energy.
