

Electronic Notification

January 20, 2010

To: Distribution List for 24-Month Application Forecast

24 MONTH APPLICATION FORECAST**Dear Sir/Madam:**

The Alberta Utilities Commission (AUC) is again seeking your assistance with the completion of the 24-month application forecast. As you may recall, this document is useful to the AUC and other stakeholders in our planning process for the next 2 year window. Your feedback will be consolidated with other entities regulated by the AUC. The completed document will be made publicly available on the AUC's website.

For your assistance I am attaching last year's 24-month application forecast (<http://www.auc.ab.ca/applications/Documents/24MonthApplicationForecast.pdf>), and a template to use this year, to the email that accompanies this letter. Please complete the attached template, separating your applications by type (i.e. rates, facilities, need, rules, standards, other).

I would appreciate it if you could forward your organization's response to Kellie Benoche (kellie.benoche@auc.ab.ca) by **February 15th, 2010**. If you have any questions please contact Wade Vienneau at 403-592-4470 or by email at Wade.Vienneau@auc.ab.ca.

Sincerely yours,

(sent by email)

Bob Heggie
Chief Executive
