		removal of, or renewal of the proposed rule.	removal of, or renewal of the proposed rule.	<p><u>Electric System Operator (AESO) provide “analysis that it has conducted or commissioned supporting the proposed rule, with a description of assumptions and methodology” and that the AESO seek to do so as early as possible in consultation with stakeholders. We request that the above language be added to section 4.4 to specify that “any material the ISO considers to be relevant” includes any relevant analysis it has conducted or commissioned. As presently drafted, Rule 017 only requires analysis to be shared by the AESO when it files its rules to the Commission. As we mentioned in the meeting, we believe that data, analysis and modelling are useful for stakeholders in order for them to understand the magnitude of the problem the AESO is trying to solve with its rule. We believe the AUC agreed with our recommendation during the meeting and we simply wish to reiterate it here. We recognize that to maintain efficiency, the AESO will need to exercise discretion in the level of supporting analysis to be completed and that such analysis will need to be commensurate with the materiality of a proposed rule or change.</u></p>
