March 16, 2015

Stakeholder consultation on the new pipeline need section of Rule 020: Rules Respecting Gas Utility Pipelines

The Alberta Utilities Commission has been working with stakeholders to identify required improvements and revisions to the proposed pipeline need review process of [Rule 020: Rules Respecting Gas Utility Pipelines](#) to keep the rule relevant and reflective of the requirements of contemporary pipeline facilities applications.

As a result of the review and with consideration of stakeholders' input, the Commission approved changes to Rule 020 on February 25, 2015, with an effective date of March 16, 2015. Materials related to the Rule 020 consultation, including stakeholder comments, are posted on the AUC's website under the Rule Development tab, [Rule 020 – Rules Respecting Gas Utility Pipelines](#).

The AUC thanks stakeholders for their time and participation in the consultation process and for their efforts in reviewing and providing comments on the proposed changes to the rule.

Any questions relating to Rule 020 or the review process can be sent by email to Raymond Lee, a senior advisor in the AUC's regulatory policy division, at regulatorypolicy@auc.ab.ca.
