AUC Rule 028: Natural Gas Settlement System Code Rules

The Alberta Utilities Commission has been working with stakeholders to identify required improvements and revisions to AUC Rule 028: *Natural Gas Settlement System Code Rules* (Rule 028) to keep the rule relevant and reflective of the requirements of the retail natural gas market.

As a result of the review the Commission approved changes to Rule 028 on December 8, 2015, with an effective date of January 1, 2016. The approved rule can be referred to as version 1.5 of Rule 028. Because the approved revisions involve system changes, market participants will be given time during 2016 to implement the required changes.

All the materials related to the Rule 028 consultation, including a summary of the changes to Rule 028, are posted on the AUC's website under the tab Rule Development, Rule 028 – Natural Gas Settlement System Code. The AUC will also be posting the comments received from stakeholders, along with the AUC's responses, on the AUC website.

The AUC thanks stakeholders for their time and participation in the consultation process and for their efforts in reviewing and providing comments on the proposed changes to the rule.

Any questions relating to Rule 028 can be directed to Andrea Laroia at 403-592-4411.
