

Notice

Hearing cancellation for amendments to the Red Deer Area Transmission Development Project

Proceeding 22025 Applications 22025-A001, Part b) and 22025-A002, Part b)

The Commission has cancelled the hearing for Proceeding 22025, which was scheduled to commence on May 24, 2017 in Calgary, to consider the above two applications. The applications were filed by AltaLink Management Ltd. (AltaLink) for approval of amendments related to the Red Deer Area Transmission Development Project in the Innisfail area. The hearing is cancelled because the Antler Hill Group, the only participants opposing the applications, withdrew their statements of intent to participate and their objections to the applications.

AltaLink requested that the Commission issue a decision approving Option 2 of the proposed routes for the transmission lines. The information filed in the proceeding will be considered and a decision is expected in mid-June 2017.

Issued on May 18, 2017.

Alberta Utilities Commission
Douglas A. Larder, QC, General Counsel
