

Notice

Applications for a new transmission line in the downtown Calgary area have been received

Proceeding 23157 Applications 23157-A001 and 23157-A002

The Alberta Utilities Commission, the independent utilities regulator, will be considering the electric transmission development applications in Proceeding 23157. If you feel you may be affected by these applications, you can provide input to the AUC to review before it makes its decision.

ENMAX Power Corporation has applied for approval of the Downtown Calgary Transmission Reinforcement Project under the *Hydro and Electric Energy Act*. The applications propose the construction of a new underground 138-kilovolt transmission line between the existing ENMAX No. 2 Substation located at 3120 Ninth Street S.E. and the existing ENMAX No. 8 Substation located at 903 Fourth Avenue S.W. The applications also propose to install a new 138-kilovolt circuit breaker in the existing control building at the ENMAX No. 8 Substation within the existing fenced area. The map identifies the applied-for route of the transmission line.

Additional information about the applications

For full application details visit the AUC website, log on to the eFiling System, type in proceeding number 23157 and select Go.

Written submissions are due April 17, 2018.

If you wish to participate in this proceeding, you may be eligible for funding to support your position, which includes costs for legal representation and expert witnesses. To learn more about the application and review process, intervener funding and what has been applied for, please attend the information session or contact:

Kal Elkassem at 403-592-4388 or email your questions to kal.elkassem@auc.ab.ca.

Information session

The AUC will be holding an information session to provide you with information about how you may become involved in this proceeding and the funding which may be available to you. The project and its merits will not be discussed at this meeting:

Sandman Hotel
888 Seventh Avenue S.W., Calgary
April 5, 2018, at 7 p.m.

Participant information

If you cannot attend the information session, you may review our website or contact us at 780-427-4903 or email consumer-relations@auc.ab.ca for more information about your opportunities for involvement, assistance with your submission, and the funding options which may be available to you under Rule 009: *Rules on Local Intervener Funding*.

The applications, and any associated documents being reviewed, are publicly available on our website. Alternatively, you may contact ENMAX Power Corporation at 403-514-1471 for further details about what is being applied for or for a copy of the applications.

For further details about the applications, please contact the applicant:

Email: stakeholderrelations@enmax.com

Submissions

To register your concerns, or your support for the proposed project, please visit the AUC website and log in to the eFiling System to file your submission for Proceeding 23157. If you do not have access to the internet, please contact us at 780-427-4903 for other options for submitting your concerns and participating in this proceeding. If no written submissions are received, the Commission may make its decision without further notice or process.

Those who do not have access to the internet can send a submission by mail or fax, and the AUC will upload the submission on your behalf. Please send your name, address, phone number, legal land location, description of your land in relation to the proposed development and describe your interest in the land, your business, or your activities which may be affected. Please briefly describe the issues you would like the AUC to consider when making its decision.

Privacy

To support an open and transparent process, information you send to the AUC will be publicly available through the AUC's eFiling System. If there is confidential information you would like to file, a request must be made in advance of filing your submission.

Issued on February 21, 2018.

Alberta Utilities Commission
Douglas A. Larder, QC, General Counsel
