

Transmission Line Permit and Licence 21169-D03-2019

Appendix 2 to Decision 21169-D01-2019	August 16, 2019
AltaLink Management Ltd. New Transmission Line 164AL	Proceeding 21169 Application 21169-A002

AltaLink Management Ltd., by Application 21169-A002 registered on December 16, 2015, applied to the Alberta Utilities Commission for approval to construct and operate a 138-kilovolt (kV) transmission line, designated as Transmission Line 164AL, from the McLaughlin 423S Substation to the existing Transmission Line 164L in the Pincher Creek area.

The Commission, pursuant to sections 14 and 15 of the *Hydro and Electric Energy Act*, approved the application in Decision 21169-D01-2019¹ and granted to AltaLink a permit to construct and a licence to operate the transmission line, subject to the provisions of the *Hydro and Electric Energy Act* and the *Alberta Utilities Commission Act*, any regulations made under the acts, any orders made under the acts, the Commission rules made pursuant to the *Alberta Utilities Commission Act*, and the following terms and conditions:

1. The route of the transmission line shall be as shown on Appendix A and as described in the application.
2. Specifications of the transmission line shall include the following:
 - a) The transmission line shall be designed, built for and operated at a nominal voltage of 138 kV.
 - b) The structures shall be constructed of materials as specified in the application.
 - c) Other aspects of the transmission line as more particularly described in the application.
3. AltaLink shall file with the Commission, within 30 days of completing the transmission line, the energization certificate(s) for the transmission line issued by the Alberta Electric System Operator and/or by AltaLink, to confirm that the transmission line has been completed and is being operated in accordance with the provisions of this permit and licence.

¹ Decision 21169-D01-2019: Alberta Electric System Operator Needs Identification Document Application and AltaLink Management Ltd. Facility Applications – McLaughlin Wind Power Plant Interconnection, Proceeding 21169, Applications 21169-A001 to 21169-A003, August 16, 2019.

4. Unless otherwise authorized by the Commission the transmission line shall be completed by November 30, 2020, or a later date of April 30, 2021, subject to AltaLink filing an approval by the Alberta Electric System Operator of a change proposal for the later in-service date.

The Commission may cancel or suspend this permit and licence, in whole or in part, in accordance with Section 41 of the *Hydro and Electric Energy Act* or may review this permit and licence, in whole or in part, upon its own motion or upon an application by an interested party, in accordance with Section 10 of the *Alberta Utilities Commission Act*.

The Commission may, within 30 days of the date of this permit and licence and without notice, correct typographical, spelling and calculation errors and other similar types of errors and post the corrected permit and licence on its website.
