Valleyview Power Plant Expansion

ATCO Power Canada Ltd. has filed an application to add a 35-megawatt natural gas turbine to the Valleyview Power Plant

Proceeding 24687
Application 24687-A001

The Alberta Utilities Commission (AUC), the independent utilities regulator, will be considering the power plant development application in Proceeding 24687. If you feel you may be affected by this application you can provide input to the AUC to review before it makes its decision.

Written submissions are due August 19, 2019.

ATCO Power Canada Ltd. has applied to construct a 35-megawatt natural gas-fired generator to increase the capacity of the existing 90-megawatt Valleyview Power Plant. The new generator would be located within the boundary of the Valleyview Power Plant.

The Valleyview Power Plant is located within the southwest quarter of Section 6, Township 69, Range 21, west of the Fifth Meridian, approximately 21 kilometres southeast of the town of Valleyview. A map showing the power plant location is attached. The application has been filed under the Section 11 of the *Hydro and Electric Energy Act*.

Additional information about the application

The application and any associated documents are publicly available and can be accessed from the eFiling System on the AUC website www.auc.ab.ca. Alternatively, for more information about what is being applied for, or for a copy of the applications, please contact:
