## Windrise Wind Power Project

Windrise Wind Energy Inc. has filed applications to construct and operate a 206.4-megawatt wind power plant in the Fort Macleod area

**Proceeding 24699**  
**Applications 24699-A001 and 24699-A002**

The Alberta Utilities Commission (AUC), the independent utilities regulator, will be considering the power plant development applications in Proceeding 24699. If you feel you may be affected by these applications you can provide input to the AUC to review before it makes its decision.

**Written submissions are due August 15, 2019.**

TransAlta Corporation, through its wholly owned subsidiary Windrise Wind LP, under its general partner Windrise Wind Energy Inc., has applied to construct and operate the 206.4-megawatt Windrise Wind Power Project. The Windrise Wind Power Project would consist of 43 turbines, the Windrise Substation, an underground collector system, a meteorological tower, access roads and other associated components. Each turbine would be approximately 90 metres high, with a rotor diameter of 145 meters, and would have a maximum generating capability of 4.8 megawatts.

The project would be located in the Municipal District of Willow Creek, approximately 29 kilometres south of Fort Macleod, within Township 6 and ranges 26 and 27, west of the Fourth Meridian. Please refer to the attached map for additional details. The applications have been filed under the *Hydro and Electric Energy Act*.

**Additional information about the applications**

The applications and any associated documents are publicly available and can be accessed from the eFiling System on the AUC website [www.auc.ab.ca](http://www.auc.ab.ca). Alternatively, for more information about what is being applied for, or for a copy of the applications, please contact:
