**Record Amendment on the Blackfalds West Transmission Pipeline in the Blackfalds Area  
Licence 7029  
Proceeding 24768  
Application 24768-A001**

**Record amendment application**

1. ATCO Gas and Pipelines Ltd., by Application 24768-A001 registered on July 25, 2019, filed an application with the Alberta Utilities Commission under Section 12 of the *Pipeline Act* and Section 4.1 of the *Gas Utilities Act* for the following:
  - length amendment of line 21 from 0.87 kilometres to 0.52 kilometres
  - mapping amendment of line 21
2. The proposed amendment is related to facilities previously constructed in accordance with approvals granted in Licence 7029.
3. ATCO stated that after reviewing its as-built information, it determined that Licence 7029 did not reflect the correct length of line 21. Therefore, ATCO applied to amend the pipeline licence to accurately reflect the record of the pipeline.
4. ATCO provided information respecting the need, nature and extent of the pipeline record amendment. Since the record amendment does not involve a ground disturbance, there will be no environmental impact.
5. Based upon the information provided, the Commission is satisfied that the proposal is of a minor nature, no person will be directly and adversely affected by the proposal, and no adverse environmental impact will be caused by the proposed record amendment.

6. The Commission approves the application. The amended licence is attached.
7. The Commission may, within 30 days of the date of this decision and without notice, correct typographical, spelling and calculation errors and other similar types of errors and post the corrected decision on its website.
