

**Electronic Notification**

April 16, 2010

TO INTERESTED PARTIES

**RULE 005 – RRT AND DRT PROVIDER AMENDMENTS**

As a result of your interest in participating in the Rule 005 Consultation, please find some additional information pertaining to the regulated rate tariff and default rate tariff (RRT/DRT) Rule amendment.

Further to Bulletin 2010-14 issued April 8, 2010, note that in respect of AltaGas Utilities Inc., EPCOR Energy Alberta Inc., ENMAX Energy Corporation, and Direct Energy Regulated Services, the Alberta Utilities Commission (AUC) has deferred the filing date for their 2009 **Rule 005 – Annual Reporting Requirements of Operational and Financial Results** to 30 days from the amended Rule approval date or as otherwise directed.

The working session has been scheduled for April 28, 2010 from 9:00 am to 4:00 pm at the Calgary office of the AUC (4th Floor, 425 - 1st Street SW). We will begin by discussing the project charter (attached) which we plan to use as a guiding document for this consultation. The project charter provides more detail on the planned process, the scope of the project, and the roles and responsibilities of the participants thereby creating a framework to ensure project success. We therefore request that you review it and fill in the highlighted sections before the meeting.

After the meeting, when the project charter and meeting notes have been reviewed and finalized, both documents will be posted at the following link:  
<http://www.auc.ab.ca/rule-development/Rule-005-RRT-DRT-Provider-Amendments/Pages/default.aspx>

An agenda for the April 28, 2010 meeting will be sent out prior to the meeting.

Sincerely yours,

*(sent by email)*

Silvia Danchuk  
Financial Analyst
