Attention: Ms. Kate Leonard
Manager, Regulatory Applications – RRO

**ENMAX ENERGY CORPORATION
REGULATED RATE TARIFF
ELECTRIC ENERGY CHARGES – MARCH 2010
APPLICATION NO. 1605919**

1. ENMAX Energy Corporation (ENMAX) filed an application (Application) on February 22, 2010, with the Alberta Utilities Commission (AUC) for its energy charges applicable to its Regulated Rate Tariff (RRT) for the month of March 2010.
2. The Application included a letter from the independent advisor¹ (the Advisor). The Advisor stated that the energy charges filed by ENMAX for March 2010 had been determined in accordance with the ENMAX Energy Price Setting Plan (EPSP) for 2006-2011 as amended in an application that was approved by the AUC in Decision [2008-091](#),² dated September 30, 2008.³
3. ENMAX's proposed energy charges for the month of March 2010 are as follows:

Rate Class	cents/kWh
Residential	5.951
Commercial	5.951

¹ The Advisor assisted in designing the 2006-2011 energy price setting plan (EPSP) and has an ongoing role respecting the procurement of the energy under the protocols established in the EPSP.

² Decision 2008-091 – ENMAX Energy Corporation 2006-2011 Regulated Rate Tariff Energy Price Setting Plan Amendment Application (Application 1575501, Proceeding ID. 66) (Released: September 30, 2008).

³ ENMAX's 2006-2011 EPSP was originally approved in Order [U2006-110](#), dated April 28, 2006 an order of the AUC's predecessor, the Alberta Energy and Utilities Board. The EPSP formed part of a Negotiated Settlement, which the Board considered would result in rates that were just and reasonable.

4. AUC staff members have reviewed the Application, including the letter from the Advisor, and the AUC accepts that the above noted energy charges represent rates determined in accordance with the ENMAX EPSP for 2006-2011 as amended and approved by the AUC in Decision 2008-091.

5. In accordance with section 7(3) of the *Regulated Rate Option Regulation*, AR 262/2005, as amended, the AUC acknowledges that the energy charges as set out above are applicable to ENMAX's RRT for the month of March 2010.

6. Further, as outlined in sections 7(4) and 7(5) of the *Regulated Rate Option Regulation*, ENMAX must retain records sufficient to enable the AUC to audit any previous monthly rates set by ENMAX. Any amount overcharged to customers due to an incorrect rate calculation must be refunded to customers as soon as practicable after the error is discovered.

7. If any affected party objects to the calculation of the energy charges for the month in question, they should notify the AUC and ENMAX in a timely manner, and include the nature of their objection and the reason(s) why it should be considered.
