**ALTAGAS UTILITIES INC.  
THIRD PARTY TRANSPORTATION RATE – AUGUST 2010  
APPLICATION NO. 1606399**

1. AltaGas Utilities Inc. (AltaGas) filed an application (Application) on July 26, 2010 with the Alberta Utilities Commission (AUC) for its third party transportation rate (TPTR) for the month of August 2010. The proposed TPTR was \$0.552 per gigajoule (GJ).
2. AUC staff members have reviewed the Application, and the AUC considers that the proposed TPTR was determined in accordance with the method approved in Decision [2007-079](#),<sup>1</sup> as issued by the Alberta Energy and Utilities Board (Board), predecessor to the AUC. Consequently, the AUC acknowledges for AltaGas the TPTR of \$0.552/GJ, which, as set out in Rate Rider “G”, is to be applied to the energy delivered to default supply and retail supply distribution service customers during the month of August 2010.
3. Upstream transportation costs that are currently recovered through the TPTR were previously recovered through AltaGas’ gas cost recovery rate (GCRR). Therefore, the AUC considers that, similar to the direction provided to gas utilities by the Board for GCRR applications in Decision [2001-75](#),<sup>2</sup> interested parties shall be provided with a 30-day review period following the filing of each monthly TPTR in which to raise any concerns with the determination of the TPTR.
