**Re: ATCO Pipelines
Radiographic Weld Inspection**

Q1 2017 Quarterly Update: 2017-2018 General Rate Application (Proceeding ID 22011)

Please find the attached quarterly update for Q1 of 2017 of 'Spreadsheet (b)', with regards to ATCO's radiographic weld inspections as requested in the Alberta Utility Commission's information clarity request, received by ATCO on September 29, 2016.

Please note that the following updates were made to Spreadsheet (b) from ATCO's last quarterly submission:

- Added information for all re-inspection projects completed from Jan 1, 2017 to Mar 28, 2017
- 21 locations (lines) were removed from the previous list, as upon detailed review it was determined no re-inspection of site was required. (ie. original project has been abandoned, removed, or replaced).

The information contained here within is current as of March 28th, 2017. ATCO will provide the next quarterly update to the AUC in July 2017 and will be current as of June 30th, 2017.

Should the AUC request further clarification or desire further information on this matter, please contact the undersigned at 780-420-7225 or by email at graeme.feltham@atco.com.

Sincerely,

Graeme Feltham, P. Eng., MBA
Vice President, Engineering & Construction
ATCO Pipelines
