

**OPTION A PRIMARY SERVICE OPTION**

Effective: January 1, 2021

**Availability:** The Primary Service Option is available for a minimum period of 12 consecutive months to Points of Service:

1. supplied under a satisfactory contract on the General Service Rate 61 or the Large General Service Rate 63;
2. normally metered at a primary voltage with the customer providing the transformation to the customer's utilization voltage;
3. with an Operating Demand not less than 1,000 kW; and
4. where the total cost of the required customer-related supply facilities (including any customer-supplied transformation) is less than FortisAlberta's investment.

The Primary Service Option is not available to Rate 65.

**Option A:** The Primary Service Option is a credit of \$0.01641 per kW of Capacity per day.

**OPTION C IDLE SERVICE OPTION**

Effective: January 1, 2021

**Availability:** For all Points of Service, the Idle Service Option is applicable where:

- i) the Customer chooses to de-energize for a given period of time while leaving the applicable Facilities in place; or
- ii) due to the acts or omissions of the Customer, a Point of Service has not been enrolled with their Retailer within 30 days of completion of construction, as provided as per the Terms and Conditions.

**Option C:** Charges for Idle Service Option are as follows:

1. for Farm Rate 21, Grain Drying Rate 23, Irrigation Rate 26, Small General Service Rate 41, Oil & Gas Rates 44 and 45, General Service Rate 61, and Large General Service Rate 63, customers are charged for the kW of Capacity as defined in the applicable rate schedule.

**Application:**

1. Sites on Idle Service Option are not normally charged for the cost to disconnect and reconnect the service.

**OPTION D FLAT RATE OPTION**

Effective: January 1, 2021

**Availability:** The Flat Rate Option is available to unmetered Points of Service which qualify for the Small General Service Rate 41 or Oil & Gas Service Rates 44 and 45 and which have a kW of Capacity with minimal or accurately predictable average monthly kilowatt hour consumption.

The Flat Rate Option is applied for a minimum period of twelve consecutive months.

**Option D:** A Flat Rate bill is calculated on the Small General Service Rate 41 or the Oil & Gas Service Rates 44 and 45, using an estimated kW of Capacity and estimated monthly kilowatt hour consumption.

**Application:**

1. If the loads change over time or if the loads are no longer predictable, FortisAlberta may meter the service at the Customer's cost and bill accordingly.
2. For new Points of Service only: Upon agreement with and at the discretion of FortisAlberta, virtual aggregation and grouping of small connected devices (which may be physically disparate) can be represented as a single Point of Service for billing and settlement purposes.

**OPTION I INTERVAL METERING OPTION**

Effective: January 1, 2021

**Availability:** The Interval Metering Option is available for Points of Service with a Contract Minimum Demand of less than 333 kW (which coincides with an Operating Demand of less than 500 kW), with Interval Meters, to enable 15-minute interval data (does not apply to DG customers who own and poll the meters).

**Option I:** The Interval Metering Option is calculated at \$1.008 /day for all rate classes.

**OPTION M DISTRIBUTION GENERATION  
CREDIT/CHARGE**

Effective: January 1, 2021

**Availability:** Option M is available to Distribution Generation (DG) Customers that are interconnected to the distribution system downstream of a FortisAlberta transmission Point of Delivery (POD) and which are exporting into the Alberta Interconnected Electric System (AIES).

DG Customers who have contracts under the provisions of the Small Power Research and Development (SPRD) Act are exempt from Option M.

**Option M:** The Option M Credit or Charge will be the difference between Alberta Electric System Operator (AESO) System Access Service charges to FortisAlberta at the upstream POD with the generator in operation and the charges that would have been incurred if the generator had not been in operation, calculated based on the amount of electricity exported into the AIES at the Point of Interconnection.

System Access Service Charges include any charges applicable at the POD in accordance with the AESO approved tariff including, but are not limited to, Demand Transmission Service (DTS) and Supply Transmission Service (STS).

The Distribution Generation Credits/Charges will be calculated monthly for each DG Customer, with a maximum export capacity of 1 MW or greater in the month, the credits and charges will be calculated on an actual basis. For Customers below 1 MW, the credits and charges will be calculated based on the average credit and charge levels for those above 1 MW.

**Application:** Option M credits or charges are extended to rural electrification associations (REAs) when an REA has a distribution generation customer (excluding MG customers) interconnected to its distribution system downstream of a FortisAlberta transmission POD, and the distribution generation customer is exporting into the AIES. Option M credits or charges extended to REAs will be calculated consistent with FortisAlberta DG Customers as described above.

**RIDER E      CUSTOMER SPECIFIC FACILITIES**      Effective: January 1, 2021

**Availability:** Applicable to facilities on Customer-owned or -leased property that do not qualify for other specific rates, as requested by the Customer and agreed to by FortisAlberta.

**Charge:** The Customer Specific Facilities Rider E will be set out in an agreement between the customer and FortisAlberta, and will be calculated to allow FortisAlberta to recover the revenue requirement of the applicable facilities. The revenue requirement will be calculated on a rate base of net book value and will include Return, Income Tax, Depreciation, an Early Abandonment Adjustment and Operating and Maintenance costs.

The Service Charge for Rider E Customer Specific Facilities is \$23.55 a day.

**Application:**

1. The charge will be based on the weighted average cost of capital and depreciation rates as approved by the Alberta Utilities Commission from time to time and a proportionate share of income taxes and operating and maintenance costs.
2. The charge is subject to change as new facilities are added or currently installed facilities are retired.
3. For facilities shared among more than one customer, a separate agreement will be established for each customer making use of the facilities.
4. Facilities constructed under the Customer Specific Facilities Rider E are owned and maintained by FortisAlberta.

**RIDER A-1 MUNICIPAL ASSESSMENT RIDER**

Effective: July 1, 2020

**Availability** The percentages below apply to the total distribution tariff charges (the sum of the transmission component and the distribution component), excluding Riders at each Point of Service, according to the taxation authority in which the Point of Service is located.  
Rates 21, 23, 24, 26, 29, 38, and 65 are exempt from Rider A-1.

FortisAlberta's Customer and Retailer Terms and Conditions of Electric Distribution Service provide for other charges, including an arrears charge of 1.5% per month.

## MUNICIPAL FRANCHISE FEE RIDERS

**Availability** Effective for all consumption, estimated or actual, on and after the first of the month following Commission approval, the following franchise fee riders apply to each rate class.

**Price Adjustment** A percentage surcharge per the table below will be added to the total distribution tariff, (the sum of the transmission component and the distribution component), excluding any Riders calculated for every Point of Service within each municipality and will be billed to the applicable retailer.

FortisAlberta will pay to each municipality each month, in accordance with the franchise agreements between FortisAlberta and the municipalities, the franchise fee revenue collected from the retailers.

FortisAlberta's Customer and Retailer Terms and Conditions of Electric Distribution Service provide for other charges, including an arrears charge of 1.5% per month.

**2021 BALANCING POOL ALLOCATION RIDER**Effective: January 1, 2021  
to December 31, 2021

**Availability:** To collect from or refund to FortisAlberta customers, an amount transferred to the AESO and its customers from the Balancing Pool under Section 82 of the Electric Utilities Act.

For all energy, wattage or kilowatts delivered, the rider applies to the Distribution Tariff by rate class:

| Rate Class Description | Rate Code        | 2021 Balancing Pool Allocation Rider Charge/(Credit) |
|------------------------|------------------|--|
| Residential            | Rate 11          | 0.2357 ¢/kWh   |
| FortisAlberta Farm     | Rate 21, 23      | 0.2383 ¢/kWh   |
| REA Farm               | Rate 24, 29      | 0.2384 ¢/kWh   |
| Irrigation             | Rate 26          | 0.2344 ¢/kWh   |
| Exterior Lighting      | Rates 31, 33, 38 | 0.0025 ¢/Watt-day                                    |
| Small General          | Rate 41          | 0.2375 ¢/kWh   |
| Oil & Gas (Capacity)   | Rate 44          | 0.0282 \$/kW-day                                     |
| Oil & Gas (Energy)     | Rate 45          | 0.2409 ¢/kWh   |
| General Service        | Rate 61          | 0.2428 ¢/kWh   |
| Large General Service  | Rate 63          | 0.2362 ¢/kWh   |

**Rate 65 Transmission Connected Service** For points of service that are served under Rate 65, Balancing Pool Allocation amounts will be flowed through as calculated and invoiced by the AESO for the appropriate POD.

**2021 BASE TRANSMISSION ADJUSTMENT RIDER**Effective: January 1, 2021  
to December 31, 2021

**Availability** For all energy delivered, estimated or actual from January 1, 2021 to December 31, 2021, the following rider applies as a percentage (%) of base Distribution Tariff Transmission Component charges by rate class:

| Rate Class Description   | Rate Code        | 2021 Transmission Adjustment Rider (TAR) Charge / (Credit) |
|--------------------------|------------------|--|
| Residential              | Rate 11          | 6.03 %   |
| FortisAlberta Farm       | Rates 21, 23     | 7.97 %   |
| REA Farm                 | Rates 24         | 10.83 %  |
| FortisAlberta Irrigation | Rate 26          | (0.42 %)   |
| REA Irrigation           | Rate 29          | 10.83 %  |
| Exterior Lighting        | Rates 31, 33, 38 | (6.28 %)   |
| Small General Service    | Rates 41         | 8.35 %   |
| Oil & Gas Service        | Rates 44, 45     | 11.24 %  |
| General Service          | Rate 61          | 3.17 %   |
| Large General Service    | Rate 63          | 4.00 %   |

**Rate 65** For Points of Service that are served under Rate 65, a charge of \$2.963 per **Transmission** day will be applied for the months of January through December 2021.
