Bulletin 2019-16
Consultation on the Issue of
Power Plant Self-Supply and Export

Acknowledgement of submissions

1. The Alberta Utilities Commission received 33 submissions in response to Bulletin 2019-16. The AUC would like to acknowledge and thank stakeholders for their thoughtful submissions which provided considerable insight into the complex issue of power plant self-supply and export. All of the submissions received are available for review on the Commission's Engage website and can be accessed through <https://engage.auc.ab.ca/Self-SupplyAndExport>.

2. The AUC is carefully reviewing the submissions received and has shared the submissions with the department of Energy for its own review. The AUC will advise interested stakeholders of the next steps in the consultation process in due course.

Sincerely yours,

JP Mousseau
Executive Director, Facilities Division
