Bulletin 2020-01
Exploring Market Concerns and Tariff
Issues Related to Self-Supply and Export Reform

Acknowledgment of submissions

1. The Alberta Utilities Commission received 29 submissions in response to Bulletin 2020-01. The AUC thanks stakeholders for their submissions on the potential market and tariff implications of unlimited self-supply and export. All of the submissions received are available for review on the Commission's Engage website and can be accessed through <https://engage.auc.ab.ca/Self-SupplyAndExport>.
2. The AUC is reviewing the submissions received and has shared the submissions with the department of Energy for its own review. The AUC will advise interested stakeholders of the next steps in the consultation process in due course.

Sincerely yours,

JP Mousseau
Executive Director, Facilities Division
