**Decision 2014-297 (Errata)**  
**Proceeding 2682**

---

1. On October 29, 2014, the Alberta Utilities Commission (AUC or Commission) issued Decision 2014-297.
2. On December 23, 2014, ATCO Electric Ltd. (ATCO Electric) submitted a letter advising the Commission of an error in the calculation of the 15 per cent markup associated with the camp installation, demobilization and dismantling costs paid to ATCO Structures and Logistics Ltd. (ATCO Structures). In Decision 2014-297, the 15 per cent markup was calculated using estimated costs of approximately \$2,600,000 resulting in a markup amount of \$400,000. However, ATCO Electric clarified that the actual charge paid to ATCO Structures was a total of \$2,387,847, which included a 15 per cent markup of \$311,000. In its letter, ATCO Electric indicated the actual charges were noted in AUC-AE-3<sup>1</sup> and its reply argument.<sup>2</sup>
3. Further to Section 48 of the Commission's [Rule 001: Rules of Practice](#), the Commission may correct errors of calculation and similar errors. The Commission corrects errors of this nature through the issuance of an errata to the original decision.
4. Upon review of ATCO Electric's letter and the record of the proceeding, the Commission considers that there was a calculation error, which resulted in the calculation of the 15 per cent markup associated with the camp installation, demobilization and dismantling costs being too high. Paragraphs 118, 119, 120 and 149 of this errata decision have been amended to reflect the corrected amount.

Dated on January 8, 2015.
