Distribution-Connected Generation Credit Module for Fortis's 2022 Phase II distribution tariff application

Proceeding 26090 FortisAlberta Inc.

The Alberta Utilities Commission, the independent utilities regulator, will be considering whether distribution-connected generation (DCG) credits should continue to be included in a distribution utility's tariff. Currently, FortisAlberta Inc., ATCO Electric Ltd. and ENMAX Power Corporation all offer DCG credit mechanisms in their respective tariffs. In view of setting an efficient regulatory agenda, the Commission considers the expeditious path forward is to decide this matter for all distribution tariffs in this proceeding as an independent module of Proceeding 25916, Fortis's 2022 Phase II distribution tariff application. At this time, the Commission expects that its determinations in this proceeding (the DCG Credit Module for Fortis's 2022 Phase II distribution tariff application) will affect ATCO Electric, ENMAX, and Fortis, as well as their customers, and the owners and operators of DCG units that receive benefit from DCG credit mechanisms set out in each of those utilities' distribution tariffs. Other distribution utilities and their customers (or members) may have an interest as well. Interested parties should refer to Exhibit 26090-X0005 for the scope and process schedule of this modular proceeding.

Statements of intent to participate are due November 30, 2020.

To register your concerns or your support on the topic of DCG credits, please visit the AUC website and log in to the eFiling System to file your submission for Proceeding 26090. If you do not have access to the internet, send your name, address, phone number, organization you are representing, description of your interest in the proceeding, position including information in support of the position and reasons why the AUC should decide in the manner recommended, and whether further process is required.

To learn more about the application and review process, contact:
Randy Lucas at 780-422-2072 or email your questions to randy.lucas@auc.ab.ca.

Privacy

To support an open and transparent process, information you send to the AUC will be publicly available through the AUC's eFiling System. If there is confidential information you would like to file, a request must be made in advance of filing your submission.

Issued on November 17, 2020.
