

# Needs identification document checklist application

Date:

Applicant reference:

## Identification

Company name:

Name, position and contact information of applicant contact:

## Project details

This application is for:

Generation connection

Non-distribution facility owner load

Project written description, including the need, nature and extent of the project and the Alberta Electric System Operator's (AESO) preferred option:

Applicable ratings/capability of any proposed major elements:

Proposed in-service date:

Cost estimate for the preferred option for the project is attached.

Yes      No

## Technical considerations

Single line diagram(s) of the proposed development and study area is attached.

Yes      No

The AESO has conducted appropriate studies and considers that the project will not result in adverse impacts to the Alberta Interconnected Electric System.

Yes      No

List any new or exacerbated Category B system impacts that occur as a result of the project and provide a description of how they will be addressed (e.g. description of remedial action schemes that will be used):

Briefly describe any alternatives to the AESO's preferred option that the AESO considered and why they were ruled out:

**Participant involvement requirements**

Notification requirements have been met and there are no unresolved objections.

Yes      No

**Environmental requirements**

The AESO does not anticipate significant environmental effects as a result of the project.

Yes      No

**Other considerations**

If you answered no to any of the questions above, please explain:

The project raises issues not addressed by the preceding questions.

Yes      No

If yes, please explain:
